that is to say with sanity, and has become engrossed in impossibilities. The loss of sanity is always disastrous, and it will be no less disastrous for the Jews than for anybody else. Leon Trotsky was the great archetype of the modern Jews, attempting indeed great things, and failing disastrously as a matter of course, and ending up dead, as the majority of Jews now living certainly will do, if they continue on their present course of action. It was not the perversity of Stalin which killed Trotsky. It was reality which killed him, and which threatens the very existence of the Jews as a people. The modern Jew has become unreal, and when you become unreal, you are destined to disappear from the scenes of reality. Reality will go marching on into the future, but the suicidal Utopian falls by the wayside. Again, the destruction of Jewish power, which began under Hitler and will continue under somebody else, was not merely an act of perversity on the part of the Goyim. There is always a precise relationship between that which is destroyed and that which is ripe for destruction. The modern Jew is fully ready for destruction. Therefore, he steers his course into destructive channels. He is incapable of real constructive action or leadership in any field.

The Jews are quite capable of dragging their host nation along with them to destruction, and this is what the Jews of America are doing with great success today. The U.S.A., under Jewish control, is a doomed and defeated nation. It is incapable of significant action, because the Jews direct policy. There is no national policy, no folk culture, no unifying principle, and, increasingly, no public morality or order. Courts, press, and legislatures are prostituted. Moral confidence ebbs rapidly when the Jews take power.

The future will be possessed by those who, in any part of the world, fling down the gauntlet and fight the Jewish power grab. For them shall be the victory, the glory, and the power to build the future.

INTRODUCING "THE NEW PATRIOT"

An encouraging development in recent months has been the appearance of The New Patriot, a quarterly literary magazine devoted to a responsible but penetrating enquiry into every aspect of the Jewish question. This is a new American publication which strives to perpetuate the high literary traditions of the now defunct British publication, The Patriot was originally founded in the 1930's, by the Duke of Northumberland and appeared regularly for two decades before finally being driven off the market by failure to obtain advertising support.

The British Admiral Sir Barry Domville, who was closely associated with the earlier publication The Patriot, in which he used to write under the pen name of "Canute," is a member of the Editorial Advisory Board of The New Patriot; the other four members being distinguished Americans, with a predominantly military background.

Heading the list of Advisory Board members is Rear Admiral John G. Crommelin, a leading fighter for the truth in America, and we are also pleased to note that an even more senior American patriot, Lt. General P. A. Del Valle is also associated with The New Patriot. Other members of the advisory board are the well known journalist Westbrook Pegler, and another distinguished military officer, Brig. Gen. William L. Lee. Legal Counsel to the publication is the Honorable Jack B. Tenney, who as California State Senator was head of the Tenney Committee on Un-American Activities, and has since written the famous Tenney Reports, which are summarized in his latest anti-Zionist book, "Cry Brotherhood."

Under the guidance of Editors Stephen Langton and Walter White Jr., The New Patriot is published from Post Box 2861, Hollywood, California 90028, and costs \$5.00 per annum. The March issue contained stimulating articles on such subjects as "Searchlight on the Vietnams," exposing Jewish influence behind the anti-Viet Nam War campaign, and "The Rise of Negro Anti-Semitism," a phenomenon which is worrying Zionists considerably. The June issue highlights "The Anti-Defamation League," "Torah Umesorah" and "Zionist Influence Behind the Suez Affair."

Within two months of appearing in print, The New Patriot was sued for \$600,000 for alleged "unfair competition" by The Council on Foreign Relations (publishers of "Foreign Affairs" magazine) but has weathered this storm and is a significant contribution to that small body of magazines which dare to publish the truth.

JEW — THE DESTROYERS!

"We, Jews, we, the destroyers, will remain destroyers forever. Nothing that you will do will meet our needs and demands. We will forever destroy because we need a world of our own."

Thus wrote the prominent Jew, Maurice Samuel, in his book "You Gentiles," page 155. Published by Harcourt, Brace and Co., New York, U.S.A., 1924.

CALLING ALL PATRIOTS!

AMERICANS WAKE UP! YOUR SONS ARE DYING IN VIET NAM, NOT FOR THEIR COUNTRY, BUT FOR THE COMMUNIST CONTROLLED UNITED NATIONS

FACTS: The Southeast Asia Treaty Organization (SEATO) is a control apparatus through which the United Nations Security Council directs the conduct of the war in Viet Nam.

SEATO, signed at Manila on 8 September, 1954, binds the signatory nations, including the United States, to the United Nations and to the provisions of the United Nations Charter.

Article One of the SEATO agreement states:

"Reiterating their faith in the purposes and in agreement with the principles set forth in the Charter of the United Nations" the SEATO participants undertake to refrain in their international relations from the threat or use of force in any manner "inconsistent with the purposes of the United Nations."

Under paragraph one, Article IV, the SEATO agreement further directs that "Measures taken under this paragraph shall be immediately reported to the Security Council of the United Nations."

SEATO is, therefore, a "front" organization or regional arrangement FOR THE UNITED NATIONS military command in New York City and the articles of the UN Charter apply as they did during the Korean war.

It should be noted parenthetically that the North Atlantic Treaty Organization (NATO) contains identical wording, thus providing the UN Security Council strategic control over American military forces stationed in Europe as SEATO controls US forces in the Far East.

Operational control of the UN Security Council, the war-waging arm of the United Nations Organization, is exercised by the Executive Officer of the Security Council. This Executive Officer also holds the title of Under Secretary for Political and Security Council Affairs. He is the custodian of all United States plans for self-defense and he controls all military forces placed at the disposal of the United Nations in consonance with UN Charter Articles 44, 45 and 46. The Under Secretary for Political and Security Council Affairs is easily the most powerful man in the United Nations.

The individual now holding this UN military post is Vladimir P. Suslov, a Soviet Communist. Suslov is the third member of the UN Marxist "troika" consisting of U Thant, Ralph Bunche and Suslov.

On Tuesday, 13 July, 1965, President Johnson told the American people that American soldiers are dying in Viet Nam because of United States commitment to the SEATO agreement. "We expect to keep that commitment," said the President, "Our national honor is at stake."

SEATO authority over Americans in Viet Nam was confirmed by Secretary of State Dean Rusk on 18 February, 1966.

The accuracy of President Johnson's statement is beyond question for Article 25 of the UN Charter directs that:

"The members of the United Nations agree to accept and carry out the decisions of the Security Council in accordance with the present Charter."

America's soldier sons in Viet Nam are committed to a United Nations "no-win" war under the same kind of UN-programmed scenario as existed during the conflict in Korea.

SIGNIFICANCE: 1. With the signing of the UN, NATO, SEATO and other "regional" treaties, the President and the Senate of the United States surrendered the sovereignty of our country to a Communist controlled World Government.

2. No authority exists in the Constitution of the United States, from which the powers and duties of the President and the Senate are derived and for the support of which they
